

Supplementary Figure 1

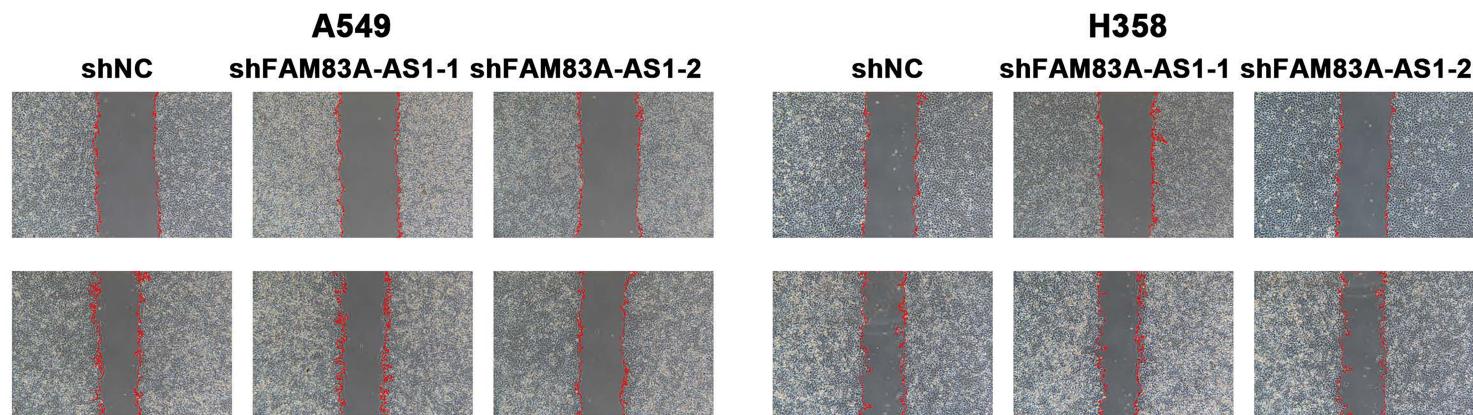

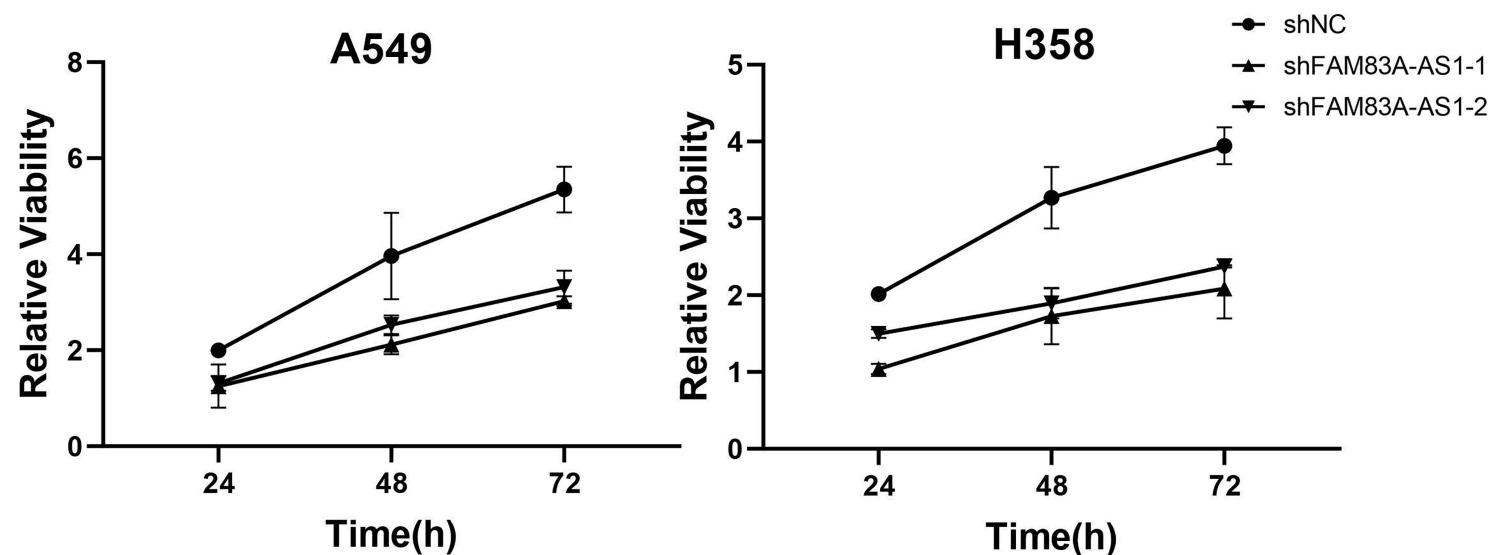

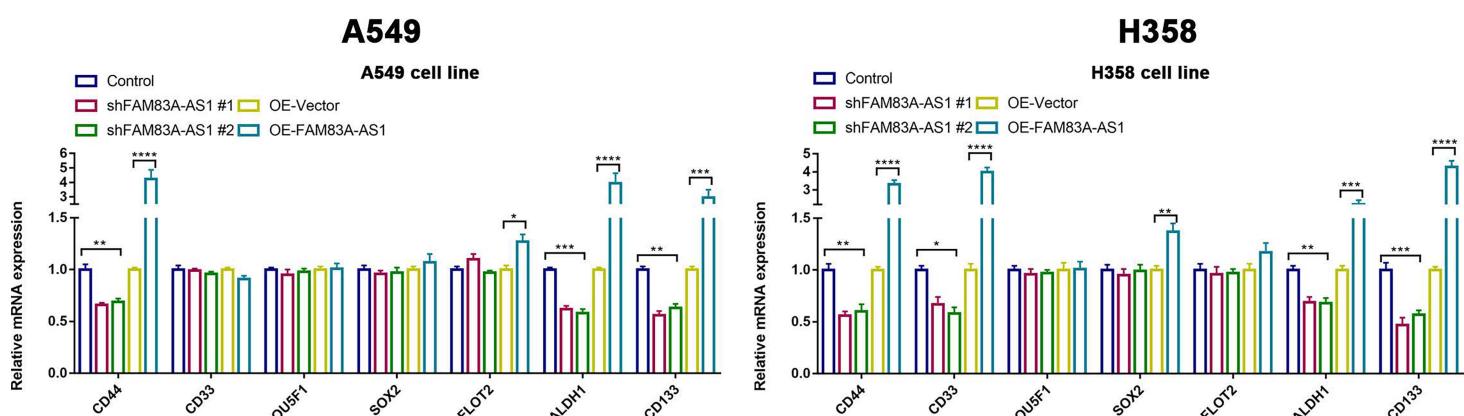

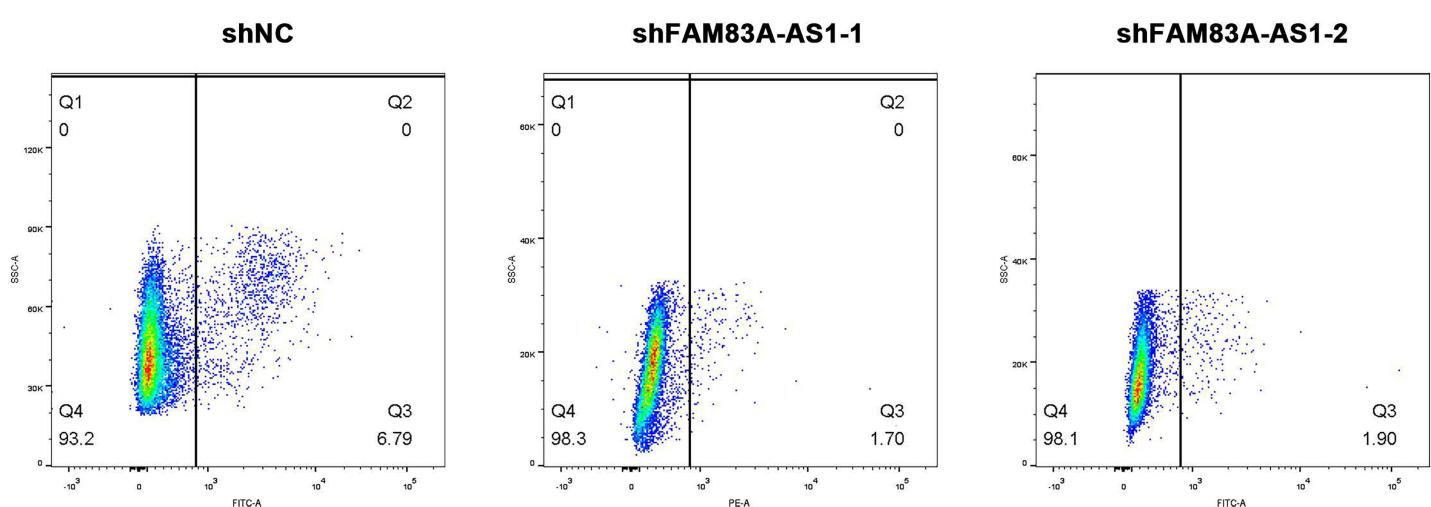

- (a). The association between the expression of FAM83A-AS1 and tumor size.
- (b). The association between the expression of FAM83A-AS1 and AJCC stage.
- (c) . The association between the expression of FAM83A-AS1 and somatic mutation distribution

Supplementary Figure 2

- (a) Wound-healing scratch assays of FAM83A-AS1 knockdown and control LUAD cells under normoxic conditions.
- (b) Growth curves of A549 and H358 cell lines were measured after transfection with lentivirus vectors by CCK-8.
- (c) Relative gene expression($2^{-\Delta\Delta CT}$) of stemness-related genes in FAM83A-AS1 knockdown, overexpressing and control cells.
- (d) The expression of CD133 in FAM83A-AS1 knockdown and control LUAD cells using Flow cytometric.

Supplementary Figure 3. Subcutaneous tumorigenesis assay shows tumor size in mice injected FAM83A-AS1 knockdown and control A549 cells.
